

Walkway Management Group – BOOST™ Max

Nano-Ceramic Floor Sealant

High-performance slip resistant sealant with Ceramic Nano Particles is the perfect coating to significantly increase flooring lifespan and appearance. The product delivers savings on core maintenance cost and provides fully compliant floors (ANSI A326.3) with a slip resistance of 0.50+ DCOF.

Nanotechnology

The unique technology of ceramic coating contains 12 million ceramic particles per square foot, which are suspended on the surface in a flexible coating system. During the application process, an extremely thin ceramic coat, not visible to the naked eye is applied. This coating is highly effective at preventing signs of wear, abrasion and dirt adhesion, while also significantly improving the anti-slip properties of the floor.

Benefits Include:

- Increased slip resistance (DCOF)
- Enhanced durability of 3-7 years
- Ease of maintenance
- Replaces annual strip and wax
- Increases the lifespan of the floor
- Protects the floor from scratches and wear

Return on Investment

*Model based on a 3,000 sq. ft. facility	Year 1	Year 2	Year 3	Year 4	Year 5	Total Spent
Annual Stripping and Waxing	\$5,400.00	\$5,400.00	\$5,400.00	\$5,400.00	\$5,400.00	\$27,000.00

*Model based on national average pricing.

*Model based on a 3,000 sq. ft. facility	Year 1	Year 2	Year 3	Year 4	Year 5	Total Spent
BOOST™ MAX Treatment	\$6,000.00	\$0	\$0	\$0	\$0	\$6,000.00

*The following ROI model is based on a 3,000 sq. ft. facility with a VCT floor.

Total Savings in 5 Years **\$21,000.00**
